1. From the START menu, open the Control Panel
2. Select Network and Sharing Center and the option to ‘setup a new connection or network’

3. Choose the connection option to ‘connect to a workplace’.
4. Choose to ‘create a new connection’.
5. Choose ‘Use my Internet connection (VPN)’.

6. The Internet address for UA’s VPN server is vpn.ua.edu. The destination name is a good description for this connection, such as UA VPN. Click Next.

7. Enter your myBama username and password to login and click Connect.

8. Once your VPN connection is established, you will have full use of the Internet on the wireless network. Simply open your Web browser, e-mail program, or other Internet application(s).
